

## every gift builds

A gift to Habitat Newburgh is a gift in perpetuity. Funds go directly to rehabbing and building our homes and therefore give our families a direct hand up. Habitat homeowners contribute over **\$500,000** each year to city and school taxes, and Habitat homes have increased property values in the City of Newburgh by **\$9 million**.

### With the help of our supporters and volunteers

Habitat Newburgh is transforming neighborhoods using our anchor block approach to building. We continue our work north of Broadway, Newburgh's main thoroughfare, to connect early build sites with new ones. These new affordable homes will not only be the catalyst for new development but also foster neighborhood comradery and a sense of community. Our sites on Johnston and North Miller are well underway and will be home to five families in the coming year. Construction of four homes on South Street and four more on Third Street will begin this year. These homes will further increase the property values in the area as well as add over \$60,000 to the tax roll per year.

Because of supporters like you, Habitat Newburgh is transforming Newburgh neighborhoods - house by house - block by block. The journey families undertake is reflected in the improvements and construction happening in Newburgh. To date 103 families are realizing the benefits of homeownership because of our program. Habitat makes a difference you can see and experience.

## Golf for Housing

An annual tradition, Golf for Housing raises critical funding to support Habitat for Humanity of Greater Newburgh's work.

Habitat Newburgh helps local families build their own homes alongside volunteers – building strength, stability, and self-reliance through affordable homeownership.

Because of your support, we have built **103 homes in 23 years!**
